Kick-off Meeting in Brussels

On the 25th and the 26th November, the kick-off meeting of the project was held in Brussels. The two Belgian partners hosted the meeting.

It was a good chance to meet each other and reach some agreements on the development of the project. Planning was reviewed, organization teams were formed and assignments were distributed.

Of all the activities that will be carried out throughout this term, we want to emphasise a collaborative activity between schools to design the project logo and an Erasmus+ corner. The first activity will be an excellent means to discuss about the topic of global competence among students and a way to enhance creativity. The Erasmus+ Corner is a dissemination activity, consisting of a noticeboard in each institution with information about the project.
